Languages: Python, C, Java, JavaScript, TypeScript, HTML, CSS, SQL

Web & Frameworks: React, Node.js, Tailwind CSS, Vite, Pug

Databases: PostgreSQL, MongoDB, Mongoose.

Tools & Design: GitHub, Figma, REST APIs, VS Code.

APPLIED PROJECTS

UOttawa Housing Portal Redesign

React, TypeScript, Vite, Tailwind CSS, Figma, GitHub

SESA Hackathon (2nd Place)

- Designed a high-fidelity prototype and built a **React/TypeScript frontend with REST APIs for user authentication to modernize the student housing navigation** and make it **more secure** for both landlords and students.
- Architected a responsive interface and managed collaborative feature branches to maintain a clean codebase during a **6-hour development sprint**.

D&M Detailing Website Page

React, TypeScript, Square API, HTML5, Tailwind CSS

- Architected a multi-page commercial application using **React and TypeScript** with integrated **Square API databases** to manage customer records, live schedules, and service data verification.
- Streamlined the booking experience with real-time **Square Appointments integration**, minimizing steps and eliminating back-and-forth to schedule a service.

Portfolio Comprehension App (Concept)

UX Research, Figma | In Progress

- Conducted **UX research** across trading platforms and investor communities to identify a comprehension gap: new investors see portfolio value changes but lack context for why they occur
- Synthesized findings into a research-based persona and problem statement, currently translating into **high-fidelity Figma prototypes**

WORK EXPERIENCE

D&M Detailing | Co-Founder

June 2025 - Present

Self-employed | Toronto, ON

- Co-founded a professional detailing startup with three partners, handling initial branding, client acquisition, and service delivery.
- Delivering premium interior and exterior services while maintaining strict quality control and a high customer satisfaction rate.
- Coordinating client communication and scheduling for a growing portfolio.

Bensimon Byrne | Production Assistant & Detailer

May 2025 - Present

On-call | Toronto, ON

- Executed detailed production tasks and automotive detailing with high precision, ensuring all final outputs met strict quality standards.
- Prepared and organized equipment and inventory in a fast-paced environment to keep production moving.
- Collaborated with the production team to meet tight deadlines while ensuring the safe and efficient use of technical tools.
